

NANDINI VARDHINEEDI

Full Stack Developer with AI

Tanuku | 9014926311 | nandini.vardhineedi@sasi.ac.in

Career Objective

I am a passionate and driven newcomer ready to make an impact in the industry. NSS Volunteer | Web Master at SITE ACM Student Chapter | SIH phrase-II Finalist 2024.

Projects

ExamEval.ai September 2024 – Present

AI-based evaluation systems offer a powerful solution to the problem of partiality in traditional grading. Ensures consistent, objective, and transparent evaluations. Helps create a fairer educational environment for all students. Evolving technologies hold the potential to transform student performance assessment and support academic success

Potify December 2024 – January 2025

Developed a music application named Potify, enabling users to stream their favorite songs seamlessly with an ad-free listening experience.

AssessMate December 2024 – January 2025

Developed a student assessment website named AssessMate, designed to facilitate efficient and user-friendly test evaluations for students.

Education

B.Tech 8.76 GPA

Sasi Institute of Technology & Engineering, Tadepalligudem
